TALMAGE ON ANGELS.

A SERMON RELATING TO SUPERNAL EXISTENCE .-

The Characteristics of the Celestial Beings as Gathered from Statements in Holy

Dr. Talmage on Sunday announced as his text Judges xiii, 19: "And the angel did wondrously." Following is a report of his sermon:

Fire built on a rock. Manoah and his wife had there kindled the flames for sacrifice in the praise of God, and in honor of a guest whom they supposed to be a man. But as the flames rose up higher and higher their stranger guest stepped into the flame and by one red leap ascended into the skies. Then they knew that he was an Angel of the Lord. "The angel did wondrously."

Two hundred and forty-eight times does the Bible refer to the angels, yet I never heard or read a sermon on angelology. The whole subject is relegated to the realm mythical, weird, spectral and unknown. Such adjournment is unscriptural and wicked. Of their life, their character, their habits, their actions, their velocities, the Bible gives us full length portraits, and why this prolonged and absolute silence concerning them? Angelology is my theme. There are are two nations of angels,

and they are hostile to each other; the nation of good angels and the nation of bad angels. Of the former I chiefly speak to-day. Their capital, and their headquarters, their grand rendezvous, is heaven, but their empire is the universe. They are a distinct race of creatures. No human being can ever join their confraternity. The little child who in the Sabbath school sings, "I want to be an angel," will never have her wish grat-They are superhuman; but they are of different grades and ranks, not at all on the same level, or the same height. They have their superiors and inferiors and equals. I propose no guessing on this subject, but take the Bible for my only authority. Plato, the philosopher, guessed, and divided the angels into super-celestial, celestial and sub-celestial. Dyonysius the Areopagite, guessed, and divided them into three classes—the supreme, the middle and the last-and each of these into three

other classes, making nine in all. Philo said that the angels were related to God, as the rays to the sun. Fulgentius said that they were composed of body and spirit. Clement said they were incorporeal. Augustine said that they had been in danger of falling, but now they are beyond being tempted. But the only authority on this subject that I respect says they are divided into cherubim, seraphim, thrones, dominations, principalities, powers. Their commander-in-chief is Michael. Daniel called him Michael, St. John called him Micheal. These supernal beings are more thoroughly organized than any army that ever marched They are swifter than any cyalone sus, open our eyes and touch our speak of their deathlessness, their instrength, their achievements.

Yes, deathless. They had a cradle, but will never have a grave. The Lord remembers when they were born, but no one shall ever see their eye extinguished, or their momentum slow up, or this existence terminate. The oldest of them have not a wrip kle, or a decreptitude, or a hindrance; as young after sis thousand years as host, but no fatality can smite them. Awake, agile, multipotent, deathless,

wisdom of an angel. There is only one thing that puts them to their wits' end, and the Bible says they have to study that. They have been studying it all through the step of your immortal spirit, and the Tally grasped at the wonders of redemption. These wonders are so high so down so grand so stupen high, so deep, so grand, so stupen-ransomed soul! Or you were some ready opened! Cherubim, Seraphim, dous, so magnificent that even the intelligence of angelhood is confounded before it. The apostle says, "Which things the angels desire to look into." That is a subject that excites inquisitiveness on their part. That is a theme that strains their faculties to I will take my life. Where is the the utmost. That is higher than railtrain, or the deep wave, or the they can climb, and deeper than they can dive. They have a desire for something too big for their comprehension. "Which things the angels desire to look into."

But that does not discredit their intelligence. No one but God himself can fully understand the wonders of redemption. If all heaven peace, the peace of God that passeth should study it for fifty eternities all understanding. What made the they would get any farther than the change? A sweet and mighty and A B C of that inexhaustible subject. conforting angel of the Lord met you. But nearly all other realms of knowl- That was all. edge they have ransacked and ex- What an incentive to purity and genious mechanical contrivance displored and compassed. No one righteousness is this doctrine that counts the probability of writer's but God can tell them anything we are continually under angelic obthey do not know. They have read servation! Eyes ever on you, so that to the last word of the line of the the most secret misdeed is committed

A further characteristic of these immortals is their velocity. This the Bible puts sometimes under the figure of wings, sometimes under the ies these expressions are of course figurative, and mean swiftness. The Bible tells us that Daniel was praying, and Gabriel flew from heaven Jesus told Peter he could instantly angels behold the face of my Father."

Elsewhere it is said: "He shall give he called for them. What foot of antelope or wing of albatross could equal that velocity? Law of gravitation, which grips all things else, has no influence upon angelic momentum. Immensities before them open and shut like a fan. They are here is no reason why they should not be a quintillion of miles hence the next minute. Our bodies hinder us, but our minds can circle the earth in a minute. Angelic beings are bodiless and have no limitation. God may with his finger point down to some world in trouble on the outmost limits of creation, and instantly an angelic cohort are there to help it. Or some celestial may be standing at the furthermost outpost of immensity, and God may say "Come!" and instantly it is in his bosom. Abraham, Elijah, Hagar, Joshua, Gideon, Manoah, Paul, St. John, could tell of their unhindered locomotion. The red feet of summer lightning are slow compared with their hegiras. This doubles up and compresses infinitudes into infinitesimals. This puts all the astronomical heavens into a space like the balls of a child's rattle.

the There, the Now and the Then, the Beyond and the Yonder. Another remark I have to make tals is that they are multitudinous. Their census has never been taken and no one but Got knows how many Companies of them, regiments of ten thousand times ten thousand are one hundred million. But these are only the angels in one place. David mighty harmonies are heard in the though the press has for twenty counted twenty thousand of them rolling down the sky in chariots. rolling down the sky in chariots. nearer still, until the brightness is so. When God came away from the riven like many mornings suffused into It rocks of Mount Sinai, the Bible sayshe one, and the gates lift and you are at every pillow, at every hour, at every moment. The earth is full of them. The heavens are full of them dren go alone when they quit this world. They outramber the human race in world. Out of your arms into angelic arms. Out of sielness into health somed spirits in glory. When Abramore radiant that any morning that more radiant that any morning that more radiant that any morning that the stroke, crying "Abraham! Abrathe lings be alone between the two kisses, ever came down the sky. They have ever came down the say. They have ham!" It was a stairway of angels more to do with your destiny and mine the any being in the universe mine the any being in the universe wilderness. We are told that an anticological that Jacob saw when pillowed in the your work!" cried an expirit g christian. Yes, a guardian angel for each Covenant, who is the Lord Je gel led the host of Israelites out of sus, open our eyes and touch our gel withe uplifted hand, swearing the right, follow it. When he warns tongue, and rouse our soul, while we gel withe uplifted hand, swearing the right, follow it. When he warns tongue, and rouse our soul, while we that time shall be no longer. In the you against the wrong, shan it. speak of their quantities ness, their great final harvest of the world the forth from God to help you in this reapers are the angels. Yea, the great battle against sin and death, Lord shall be revealed from heaven with mighty eagels. Oh, the number and the might and the glory of these appernals! Fleets of them! Squarons of them! Host beyond the rulers of the darkness of this bost! Rank above rank! Millions world, against spiritual wickedness on millions! And all on our side if

This leads me to speak of the offices as young after sis thousand years as of these supernals. To defend, to wings on our side, all their chariots said of the good in heaven, "Neither to the right and to except the good in heaven, "Neither to the right and to except the good on our side. can they die any more, for they are equal unto the ansels." Yes, deathless are these wonderful creatures of Just as alert today and efficient as whom I speak. They will see world when in Bible times they spread whom I speak. A STUDENT DEMONSTRATION

Unfortunate Occurence-What the Students Say---Action of the University Council. COLUMBIA, S. C., March 29 .- The following letter appears in today's

Register: "Dr. McBryde, President of the South Carolina University: Dear Sir-"During the farmers' convention here numbers of the students of the University were present, and during the progress of the proceedings, speakers who were in favor of nominations were hissed and treated in a rough manner. After the proceedings were over a large crowd of students was an organized mob, singing vile songs and applying all manner of opprobrious epithets to the leaders of this movement, and followed Capt. Tillman around, even to his hotel,

and threatening to do personal violence to his person. "We desire respectfully to call your attention to these proceedings. A public expression of opinion from you

concerning this will oblige us. Very espectfully. "J. H. Counts, L. E. Parker, J. L. M. Irby, W. P. Snelgrove, A. C. Lat-

ACTION OF THE STUDENTS.

The Register of the 30th gives the

The University students held : meeting at 2.30 o'clock yesterday af-ternoon to consider the charges recently made as to the action of certain of their number during and after the adjournment of the Farmers' Convention. A committee of nine was was appointed to draft resolutions in reference to the matter.

This committee made a report to a second meeting of the students held at eleven o'clock last night, after the public debate of the Euphradian Society. The resolutions reported by the committee were adopted by the meeting with certain amendments, and were submitted to President Mc-Bryde, who consented to their pubication. The resolutions are as

Whereas it has been brought to the notice of the students of the South Carolina University that certain &maging statements have been circulated in regard to the actions of some of the students on the night of the 27th instant, therefore, be it

Resolved, That the following statements are false: (a) that a body of That immediately after the convention adjourned a number of students were in a crowd together, with delegates and others, and indulged in a demonstration more boisterous than politic; that the students intended no disrespect whatever to the con-

That the account published in The News and Courier of March 29th is complete and true in every detail.

That these resolutions be published in the leading papers of the State

R. Coggesall, Geo. S. Legare, Samuel McGowan, G. M. Pinckney, H. L. Elliott, Jr., S. P. Verner, O. R. Withers, committee.

The University council met at noon yesterday and remained in session two hours investigating the matter referred to above. The council met again at six o'clock last evening but adjourned without taking action, its sessions thus far having been devoted to investigating the matter with a view of ascertaining what portion of current reports were correct and what exaggerated or false.

The names of a number of students, said to be about forty, have been submitted to the council as having been participants in the demonstration. On Monday separate cases will be investigated, to arrive at the individual responsibility of the students concerned.

President McBryde has never received any communication on the subject from Captain Tillman and those who signed the open letter, but will communicate with them after the council takes action.

After being in session three days and hearing fifty witnesses on the anti-Tillman demonstration the University council yesterday summoned and individually reprimanded each of the twenty-three students involved.

Fifteen of the twenty-three students are from the country, eleven being sons of farmers. The Negro in the Church.

CHARLESTON, S. C., April 2.—The war in the Episcopal Church here about the admission of negroes to the Diocesan Convention is waxing hot. The elections of delegates to the Diocesan Convention are held on Mongan to call on him for a speech, but and the loss of life is conjectured to day next, and most of the congregations are divided into negro and antinegro parties. A circular issued today nominates a ticket for delegates to represent St. Philips' Church remained till Father Charles, of the number killed here by the tornado of who are pledged to the absolute sep-Church of the Sacred Heart, came for Tuesday night is 93. So far about 150 seeking to admit the Rev. J. H. M. Pollard, the colored rector of St. Mark's Church, and to draw the line hurt are at the hospital in a dying there. The slogan of the straight out party is "no negroes need apply.

A Decaying Community.

The North Star, of Danville, Vermont, founded in 1806, has suspended publication. Several months ago both the town and the paper suffered a stunning blow from fire, and business was prostrated. Danville, one of the towns in the northern part of the State, has fallen behind in recent years in population and business; it is chiefly a farming community, and many of its farms have been abandoned. The Springfield Republican regards the suspension as significant, and inquires: "Shall we go from abandoned farms to deserted vil-
